SHIP CHANDLER MULTI-DOMAIN WEBSITE DEVELOPMENT PROPOSAL

Project Type:
Static HTML/CSS Website Network

Project Overview:
Develop a network of 42 individual ship chandler websites. Each website will target a specific port location and will follow one common professional design template.

The first website to develop as the master example:
shipchandlerabidjanport.com

After approval, the same structure will be adapted for the remaining domains.

PROJECT OBJECTIVE

Create professional SEO-focused ship chandler websites that promote:
- Ship chandling services
- Vessel supply
- Marine stores
- Food provisions
- Bonded stores
- Ship supply services

The website content must focus only on ship chandler services and should not focus on logistics or cargo delivery.

WEBSITE STRUCTURE

Every domain will contain:

1. Homepage
2. About Section
3. Services Section
4. Ports Dropdown Menu
5. Port Description Pages
6. Contact Section
7. Request Quote Section

HOMEPAGE REQUIREMENTS

Each domain homepage will be customized for its main port.

Example:
Ship Chandler in Abidjan Port, Côte d’Ivoire

Homepage sections:
- Hero banner
- Port-specific introduction
- Ship supply services overview
- Service categories
- Why choose us
- Quote call-to-action

SERVICES SECTION

Every website must include:

1. Ship Provisions Supply
- Fresh fruits and vegetables
- Meat and poultry
- Seafood
- Dairy products
- Frozen food
- Dry provisions
- Drinks and beverages

2. Bonded Stores Supply
- Duty-free products
- Crew welfare items
- Confectionery
- Soft drinks

3. Deck Stores Supply
- Ropes
- Chains
- Marine hardware
- Tools
- Safety equipment

4. Engine Stores Supply
- Filters
- Bearings
- Pumps
- Valves
- Lubricants
- Technical supplies

5. Cabin and Galley Stores
- Linen
- Towels
- Kitchen equipment
- Cleaning supplies

6. Safety Equipment Supply
- Helmets
- Safety shoes
- Gloves
- Coveralls
- Safety products

PORTS MENU SYSTEM

Each domain will include a Ports dropdown menu containing the 49 ship chandler port locations.

Example:
- Ship Chandler Dar Es Salaam
- Ship Chandler Abidjan
- Ship Chandler Dakar
- Ship Chandler Richards Bay
- Other listed ports

PORT DESCRIPTION PAGES

Each website must contain the same 49 port description pages.

Each port page includes:

- H1 title
- Port introduction
- Ship supply description
- Service categories
- Why choose us section
- Request quote CTA

Example:
Ship Chandler Dakar
Ship Chandler Richards Bay
Ship Chandler Cape Town

DEVELOPMENT APPROACH

Technology:
- HTML
- CSS
- JavaScript (where required)

No CMS is required.

The developer should create a reusable static website template.

Workflow:

Phase 1:
Create complete master website:
shipchandlerabidjanport.com

Includes:
- Complete design
- Homepage
- Services
- Ports menu
- 49 port pages

Phase 2:
Client review and approval.

Phase 3:
Duplicate the approved structure for remaining domains.

Phase 4:
Replace:
- Domain name
- Main port information
- Country information
- SEO text
- Images

DESIGN REQUIREMENTS

Design style:
- Professional maritime industry look
- Clean corporate layout
- Responsive design
- Mobile friendly
- Fast loading

Required pages should look consistent across all domains.

SEO REQUIREMENTS

Each page should include:

- SEO title
- Meta description
- Proper headings
- Clean URLs
- Image alt text

CONTACT SECTION

Every website should include:

- Email
- Phone
- Contact form

REQUEST QUOTE FORM

Fields:

- Name
- Company
- Email
- Phone
- Vessel Name
- IMO Number
- Port
- ETA
- Required supplies
- Message

FINAL DELIVERY

Developer must deliver:

- 42 static HTML/CSS websites
- Responsive design
- All port pages integrated
- Working navigation
- Contact forms
- Optimized images
- SEO-ready structure

IMPORTANT NOTE

The project should be developed as a repeatable static template system:
Create once, duplicate, customize for each domain.
